Our Mission

Clinical Tattooing System

Clinita intends to offer a new operative method to execute aesthetic, paramedical and artistic tattoos.

The Clinita method is based on the use of autoclavable dermographers and sterile pigments, stemming from extensive research and development of a manufacturing system, which are crucial to ensuring their high quality and performance.

An operative method with strict protocols to ensure the full sterility of the working environment. This method marks an important change in the skills required by the specialist to ensure absolute safety for the customer and piece of mind for the operator.

A portrait of Rita Molinaro, a woman with short, wavy grey hair, wearing a black blazer and a large ring. She is resting her chin on her hand and looking thoughtfully at the camera.

Rita Molinaro

*“Each person is unique.
We are not here to give emphasis or make corrections, instead
we need to look for the uniqueness in people and enhance them”*

Extend your style **Pulse.**

Pulse is the console designed for the most demanding permanent makeup, paramedical dermopigmentation, tricolour micropigmentation, derma needling, and artistic tattoo professionals. The most distinguished experts in the industry have tested and contributed to the development of Pulse, a system designed to ensure full control of the dermopigmentation process and the utmost safety for both the client and professional.

Digital Speed Pulse

Pulse improves the operator's working experience thanks to its cutting-edge software with 5 different treatment programs. Power and beat speed can be adjusted for each program. A technologically advanced software with 5 proposed treatment programs, within which it is possible to infinitely adjust the power and speed of the stop for each application of dermopigmentation.

Control Panel Pulse

Price: € 1.280

Limitless control

Support for the second handpiece

Clinita Pulse has two power ports to enable the configuration of two different handpieces separately so as to reduce considerably preparation times during treatment or in case of combined techniques.

The support is made of aeronautical grade aluminum, the ideal handpiece for left-handed grip.

Price: € 190

PULSE

The easy device
Smart.

Compact and intelligent, SMART is a small console with an electronic heart.
The electronic processor offers four suggested work programs and within them the ability to manage the stroke speed.
Smart is made of touch-screen glass, set in a single block of satin-finished aeronautical aluminum alloy, light, easy to clean and free from corrosion and oxidation.

Control panel Smart
Price: € 240

I-RUN

Light

The best compromise between power and comfort, weighing less than 45g is perfect for long tattoo sessions.

Powerful

The Maxon DCX12 engine, designed exclusively for Clinita and the PMU, makes I-run the most powerful Pmu handpiece on the market.

Efficient performance is guaranteed also at lowest revs.

Total insulation

The special membrane at the entrance of the transmission shaft totally isolates the dermograph from any possible contamination coming from the needle or cartridge.

Versatile

3.0mm cam excursion, ideal for perfect hairs and shades.

A single handpiece for medical tattoo and corrections, on the most difficult skins too.

It also supports a full range of MICRONEEDLING needles.

Torque

Components made of precious metals, high efficiency of the electrical parts, allow I-Run matchless performance even at very low speeds, reducing injuries and inflammation to the skin, allowing greater release and color retention.

Revolutionary

I-Run

I-Run is the brand new Clinita handpiece designed to revolutionize definitely the working method. Even more defined hair, shades and wow effect pixels, infinite power even at the lowest speeds, work already clear in the first pass with less stress for the skin and a total color retention. I-Run is the ideal tool for permanent makeup, microneedling and trichological micropigmentation, thanks to the wide range of Glove needles (17 sizes). Equipped with a special membrane at the transmission shaft entrance that completely isolates the pen from any possible contamination that may come from the needle or cartridge.

Dermograph I-Run
Prezzo: € 890

Perpetual Grip I-Safe

A unique dermograph with propulsion motion, totally autoclavable to ensure sterility when working.

The patented “plug-in” system isolates perfectly the motor avoiding any crosscontamination. This tool is extremely professional so as to suit the most demanding operators but also user-friendly to cater to the needs of those who want to push boundaries and achieve new professional targets. The only dermograph for permanent makeup, corrective and artistic tattoos that meets the requirements for medical certification for devices.

The fast “plug-in” system of Absolute needles.

●
Dermograph I-Safe
Price: € 940

I-SAFE

Practical

Special mechanism for high-precision needle output settings. Quick “plug-in” system for Clinita needle cartridges.

Screw-In

The patented “Screw-In” docking system of the motor-handpiece is sterilizable and autoclavable, hermetically isolating the engine from any risk of contamination.

Silent

Eccentric, made of medical autolubricant material that is resistant to the most extreme uses, acoustic insulation of the transmission shaft, latest generation motor (“continuous cycle motor”)

Autoclavable

The only completely autoclavable dermograph with a rotative-propulsive movement to guarantee maximum sterility.

Perpetual Grip

Patented Cam “PERPETUAL GRIP”, avoiding the power losses of traditional cams. NO flickers, MORE stability, NO vibrations, MORE precision.

Painless

The innovative design of the handpiece transmission, the calibrated needle excursion, allow treatments in the absence of pain, avoiding the possible application of analgesics. This means less stress on the skin, absence of bleeding, better colour retention with a considerable reduction in healing times.

Brush-Less motor

Why use BRUSH-LESS ENGINES? Maximum power guaranteed at any bit-speed; power-to-weight ratio that's up to six times better than traditional “brushed” devices.

POD

Practical

Special mechanism for high-precision needle output settings.
Quick "plug-in" system for Clinita needle cartridges.

Safe

Pod is a dermograph equipped with a special membrane on the transmission shaft which completely insulates the pen and prevents contamination with the needle or cartridge.

Trichological Micropigmentation

Specific program developed for Trichological Pigmentation.

Dermaneedling

The machine software has special calibration settings enabling MICRO NEEDLING execution with the utmost precision and highest performance. This Dermograph requires two needles specifically conceived for micro needling, one with "nano" technology.

Comfortable

The handle is comfortable, ergonomic and designed for the ideal grip, but thick enough to avoid occupational diseases. The perfect balance prevents hand fatigue even after multiple hours of work.

Powerful Heart

Pod

Handpiece for PMU, tricopigmentation and Microneedling working with cartridge needles. Maxon 5W micro engine. No vibration, lowest noise level.

The smallest and lightest hand piece. Equipped with a special membrane at the opening of the transmission shaft, it completely isolates the pen from any possible contamination from the needle or cartridge.

For this Dermograph there are three specific needles for Microneedling, including one with nanotechnology. Fast "plug-in" system for HP needles.

Dermograph Pod
Price: € 560

Stable, certified, and safe pigments

The intense concentration, the sophisticated manufacturing and the purity of the components guarantee high stability and longevity of the application over time meaning satisfied customers. The raw materials used in the production of Clinita colours meet the quality of pharmaceutical-cosmetic grade, the best available on the market.

10-year Expiration

The revolutionary pack of 2.5 ml bottles, which are individually packed and sterile, allows Clinita the best in terms of product expiration. The special precision dispenser allows the consumption of the colour up to the last drop avoiding the waste of bottles or traditional dispensers.

Sterile

Produced in a sterile and aseptic environment with raw materials that are certified sterile. Sterile water as an excipient, purified from heavy metals and managed by a special digitally controlled plant. Clinita colours are further sterilized by a gamma radiation process at the end of production = total removal of any risk of contamination.

Safety

Our colours are subjected to the strictest quality control certified by one of the leading independent European laboratories (CtI Bielefeld in Germany). In addition, Clinita tests its colours under the Spectrophotometry process to certify the aging qualities of the pigment so there is no alteration in the tone. They are registered in the CPNP (Cosmetic Products Notification Portal) as products approved under these stringent parameters.

Long-lasting

Their high concentration, sophisticated manufacturing and purity of components ensure highly stable and long-lasting results, making for absolute customer satisfaction. The ingredients used to produce Clinita colours meet pharmaceutical-cosmetic standards, the highest available on the market.

Ideal for microblading

The concentration and density of the pigment make it ideal for this ancient Oriental technique. Colours do not change and do not change. With a proper technique they represent an excellent response on techniques that require extreme performance of colour, such as microblading and trichological pigmentation.

Check-Up Friendly

Thanks to the innovative formulation of the low-molecular-weight pigment, the colour is not detected by diagnostic tools, such as MRI.

PIGMENTI

PACK
PIGMENTI

Pack N. 1 **Indispensable**

Price: € 220

1 vial for each colour

101 Perfect Black

Very deep black for eyeliner or lash enhancement for an intense look.

201 Coffee

Suggested for: dark slate brown eyebrow colour; a rich dark coffee colour; use on Fitzpatrick V & VI skin types; use on Asian or Mediterranean skins; obtains a nice velvety eyeliner.

202 Chocolate

Suggested for: obtain dark-warm eyebrow; shade dark nipple and areola; ideal for skin tones V to IV of the Fitzpatrick scale.

205 Marron Glacé

Suggested for: use on darker complexions for medium brown areola; use in areola mixtures for darker tone; use to obtain a medium brown eyebrow colour.

212 Brownie

Ideal for creating natural brows for Fitzpatrick II-IV skin types. Darken the value, leaving a natural tone. An elegant sepia colour for several applications. A must-have that will meet many needs.

400 Bran

Suggested for: a well-balanced medium blonde eyebrow colour for Fitzpatrick III-IV skin types.

502 Litchi

Suggested for: obtaining a soft (Mauve) Sienna tone and warming mucous membranes which are cold and purplish, transforming them into fresh, soft and firm tones.

505 Tikka

Suggested for: emphasizing lip contours naturally and creating delicate tones for filling out; to soften pink areolae and nipples, and the internal part of the nipple on lighter areolae.

604 Rose Pepper

Suggested for: a soft brown/pink mauve colour for lips.

704 Cherry Wood

Suggested for: a soft brown/pink mauve colour for lips.

L72 Sweet Cherry

The colour of ripe cherries. It strengthens the natural lip colour, intensifying the firmness of mucous membranes. Use it pure for intense but wonderfully veiled shades.

L61 Cranberry

"Mars red" with elegant warm shades. Refined and natural. Beautiful alone or used as a mix.

Pack N. 2 Lips

Price: € 125

1 vial for each colour

502 Litchi

Suggested for: obtaining a soft (Mauve) Sienna tone and warming mucous membranes which are cold and purplish, transforming them into fresh, soft and firm tones.

505 Tikka

Suggested for: emphasizing lip contours naturally and creating delicate tones for filling out; to soften pink areolae and nipples, and the internal part of the nipple on lighter areolae.

604 Rose Pepper

Suggested for: a soft brown/pink mauve colour for lips.

L73 Cosmopolitan

A colour that will transform lips naturally from dull and pale into lively and sparkling, with a soft and gentle effect. It can create beautiful shade variations to create volume.

L72 Sweet Cherry

The colour of ripe cherries. It strengthens the natural lip colour, intensifying the firmness of mucous membranes. Use it pure for intense but wonderfully veiled shades.

L61 Cranberry

"Mars red" with elegant warm shades. Refined and natural. Beautiful alone or used as a mix.

Guided choice.

CIC: Colour Chart, the innovative guide to help you to choose our colours.

A convenient and intuitive system based on decades of experience with Clinita techniques. It matches the customer's phototype with values, temperatures and colour compositions enabling better and safer choices, thus avoiding mistakes in the choice of colours and colour alterations.

Pack N. 3 Eyebrow

Price: € 100

1 vial for each colour

201 Coffee

Suggested for: dark slate brown eyebrow colour; a rich dark coffee colour; use on Fitzpatrick V & VI skin types; use on Asian or Mediterranean skins; obtains a nice velvety eyeliner.

202 Chocolate

Suggested for: obtain dark-warm eyebrow; shade dark nipple and areola; ideal for skin tones V to IV of the Fitzpatrick scale.

205 Marron Glacé

Suggested for: use on darker complexions for medium brown areola; use in areola mixtures for darker tone; use to obtain a medium brown eyebrow colour.

212 Brownie

Ideal for creating natural brows for Fitzpatrick II-IV skin types. Darken the value, leaving a natural tone. An elegant sepia colour for several applications. A must-have that will meet many needs.

400 Bran

Suggested for: a well-balanced medium blonde eyebrow colour for Fitzpatrick III-IV skin types.

508 Curcuma

Suggested for: neutralizing greys that are too cold or charcoal or colours that are too dark or tend to blueish colours; use it directly if the grey and the blue are rich and dense.

Pack N. 4 **Areola**

Price: € 230

1 vial for each colour

S35 Alabaster

Chromatic, neutral, cold and unsaturated to correct reddish dyschromia. Suitable for camouflage, correction and corrective dermopigmentation. Suggested for use as a base or to change tones toward a natural skin colour.

L72 Sweet Cherry

The colour of ripe cherries. It strengthens the natural lip colour, intensifying the firmness of mucous membranes. Use it pure for intense but wonderfully veiled shades.

S31 Himalaya Mauve

Neutral pinkish colour. Suitable for reconstructive dermopigmentation as a base or for correction. Suggest for: use as a pinkish concealer for lip colours. Lightens with a saturated effect.

417 Honey

Suggested for: obtaining dark blonde eyebrows; obtaining sophisticated amber tones: correct greyish or eggplant-like tones. For Fitzpatrick I-III skin types.

700 Date Palms

Suggested for: obtaining more volume with any lip colours; creating shadings of the nipple.

701 Black Rose

Suggested for: obtaining defined lip liners, even on fairlydark lips; colouring dark red/pink nipples and areolae and for CAC shadings. Darkening lip tones in a natural way.

707 Bois de Rose

Suggested for: delicate shadings on areola with Fitzpatrick I to III skin types; natural effect on warm skin.

209 Toffee

Suggested for: mixtures to obtain specific colours or recreate special honey tones. Flexible colour for obtaining different tonesb from soft tones. Great performance with areolae.

309 Nougat

Suggested for: mixtures for camouflage or reconstruction. Neutral, slightly golden.

306 Jicama

Suggested for: camouflage, for the nipple-areola area or as a mix to illuminate or lighten skin tone.

706 Tuja

Suggested for: use as a base to create endless sophisticated nuances for lips. A warm and natural tone.

203 Tamari

Suggested for: creating warm shading and on dark areolas; modifying cool colours; neutralizes blue or grey eyeliner and eyebrows, or previous tattoos that have become grey or cold."

Pack N. 5 **Vitiligo**

Price: € 120

1 vial for each colour

304 Brown Sugar

Suggested for: use as a base colour, medium warm brown, very versatile; creating light areolae, for shading and recreating Montgomery Glands.

S33 Silk Way

Chromatic neutral with golden shades. Suitable for camouflage, correction or corrective dermopigmentation. Suggested to be used as a base or to change tone toward a natural skin colour.

S34 Warm Amber

Chromatic beige with amber nuances. Suitable for camouflage, correction or corrective dermopigmentation. Suggested to be used as a base or to change tone toward a natural skin colour.

417 Honey

Suggested for: obtaining dark blonde eyebrows; obtaining sophisticated amber tones: correct greyish or eggplant-like tones. For Fitzpatrick I-III skin types.

306 Jicama

Suggested for: camouflage, for the nipple-areola area or as a mix to illuminate or lighten skin tone.

309 Nougat

Suggested for: use in mixtures for camouflage or reconstruction. Neutral, slightly golden.

Needles

*Absolute
High Performance HP
Glove*

Precision, safety, control

Absolute

Sterile disposable cartridge needles designed with a patented water-tight sealed closure which prevents any possible cross-contamination of the handpiece.

Extreme Mask

Mask for sensitive and tired skin. Thanks to its moisturizing, antiage and restorative action it is designed to treat cracked, dehydrated skin. Due to its extraordinary soothing effect, it is recommended for use after sun exposure; laser, infrared or needling treatments; or whenever skin is suffering from stress and fatigue.

- Free from parabens
- Free from silicones

Soft, rich and velvety texture. Long-term lifting, repairing and moisturizing mask that improves the skin barrier. Antioxidant, sebum-like formulation with a revitalizing, soothing and supple effect. Rosemary essential oil has an antiseptic, antioxidant and skin toning effect.

BOX 1 PCS
75 ml

Price: € 42

C-Clare Elisir

Skin lighting concentrate with a nourishing texture and a pleasant long lasting fresh effect with immediate absorption.

- Silicon free
- Parabens free
- Petrolatum free

The concentrate guarantees a correct hydration without creating an oily effect. Perfect for a daily base, with or without make up.

The active extract of orange, rice, caper and Sicilian olive leaf give brightness and compactness to the skin, acting on dyschromia, favouring its reduction..

BOX 1 PCS
30 ml

Price: € 42

C-Clare Mask

Exfoliating mask studied for 4 different application, to be applied once a week. The mask guarantees a complete exfoliating and renovating action thanks to the organic acid complex extracted from fine Sicilian white grapes.

- Silicon free
- Parabens free
- Petrolatum free

White grape extract allows cell turnover, making it the best ally to reduce the signs of aging, skin thickening, acne marks and reduce skin spots.

BOX 4 PCS
4x10 ml

Price: € 90

Certified Training

Clinita aims to offer the best training opportunities to the professional, in order to meet the various demands in a highly qualified way. A clear and thorough answer, rigorous and serious, but proposed in a simple and exhaustive way in a maze of self-regarding offers with the promise of easy money at the expense of professionalism. Clinita courses offer a complete and innovative preparation for a request of professionalism increasingly sophisticated.

Teachers born to teach.

Our teachers are equipped with EQF (European Qualifications Framework) certificates for training, and the certificate issued has legal value and is recognised as course credit in Europe. Each certificate is authenticated by a hologram with a serial number for registration.

Universal.

The worldwide network of professionals and masters of tattooing already using the Clinita method and products is a source of continuous exchanging and sharing of experiences and techniques. This allows our company to constantly update the forms of education and training so to provide always the latest proposal in the market.

Guaranteed result.

Our promise; make sure that, with the same passion that led us to create the project Clinita, we will transfer to you our techniques and knowledges, so that you will become a safe, effective and prepared professional.

No Global.

It is not our interest to propose a standardized training, but instead to recognize the needs and career paths of each, because training is a continuous evolution and we are convinced to be the best possible partner on the road to this wonderful profession that is dermopigmentation.

The best educational kits

The whole material necessary for both the course and commencement of the work activity is offered to you as part of the cost of the course. What is included in the Clinita box:

- Course book-handout
- Laminated colour folder in poster format
- Detailed guide to the use of pigments
- Notebooks and pens for the notes
- Exercise handout
- Tools for work design (make-up pencils, felt-tip pens, rulers etc.)
- Drawing tool
- Needles and colours galore
- Disposable accessories for conducting exercises (gloves, gowns, masks, ink-holder caps, sterile field of work etc.)
- Educational material for exercises: colours, watercolours, synthetic skins (pleather), etc.
- Clinita dermograph on free-of-charge loan for use

Reliability

Stop improvising; training is something that has to be taken seriously, since the future of the profession is represented by those who devote time and invest resources to become comprehensive professionals with impeccable technical skills.

Never Alone

Join the Clinita group means you can always count on a suggestion and advice. Becoming part of a network of exchange and sharing with top industry professionals, operated on exclusive "social" groups and platforms; enjoy a tutoring service where constant support and advice are offered with openness and passion.

Strict methods and lots of practice

Appropriating the techniques and maneuvers professionally, managing the total sterility of the working field for your own and your customer safety, knowing colors scientifically, being able to project by mastering the knowledge of the face and morphology concepts are some of the topics that should be treated with rigor in theory but also to put immediately into practice with lots of exercises.
